Who We Are – PCL PARIKSHAN CALIBRATION LABORATORY LLP

At **PCL Parikshan Calibration Laboratory LLP,** we are committed to delivering **Precision-Driven Calibration and Repairing services** for industries. With a **dedicated team of experts,** we provide tailored calibration solutions in **Mechanical, Electrical, and Thermal Instruments.** Our mission is to ensure **accuracy, reliability, and compliance** in every service.

Located in **Pune, Maharashtra,** we take pride in offering **reliable calibration, traceability to international standards and timely support,** making us a **trusted partner** for industries seeking.

MISSION

To deliver accurate, reliable, and accredited calibration services that enhance performance, ensure compliance, and provide long-term data accuracy for our clients, while maintaining the highest standards of professionalism and technical excellence.

VISION

To become the most trusted calibration and testing partner in India by offering world-class services, continuous technological upgrades, and innovative solutions that empower industries with quality, compliance, and efficiency.

Industry Problems and Impact

Calibration Cost Pressure

- Rising calibration and maintenance costs make it challenging for industries to manage budgets without compromising quality.

Quality Drift:

- Instruments naturally drift over time, leading to unreliable data and potential product rejections

Downtime & Delays

- Uncalibrated or faulty instruments cause operational downtime, delaying production schedules.

Lack of Skilled Service Providers

- Many regions lack accredited and experienced calibration labs, leading to dependence on limited providers.

Market Competition

- High competition in industrial services puts pressure on pricing and quality differentiation

Our Tailored Solutions

PCL Parikshan CALIBRATION LABORATORY LLP

Calibration & Preventive Maintenance

We provide scheduled calibration and preventive maintenance, ensuring instruments remain reliable and avoid costly downtime.

All-in-One Calibration Facility

From mechanical to electrical and thermal instruments, we offer complete calibration services under one roof with NABL accreditation.

Affordable & Transparent Pricing

Our pricing model is fair, with no hidden costs, making professional calibration accessible for SMEs, MSMEs, and large industries.

Client-Focused Service

We offer personalized calibration solutions, dedicated support, and clear reporting to ensure smooth compliance and stress-free audits.

Annual Maintenance Contracts (AMC)

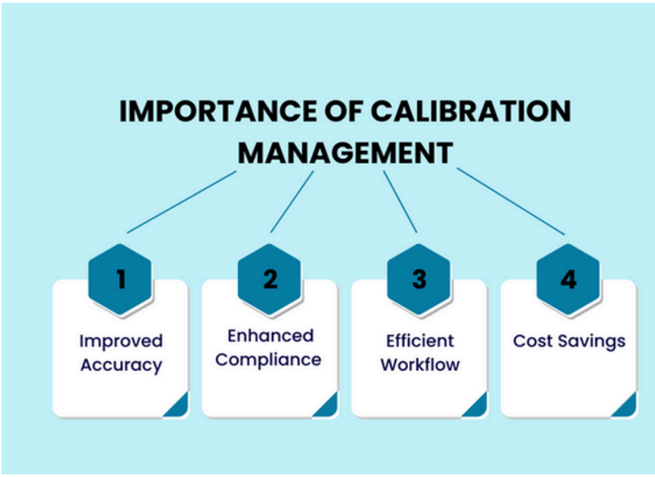
Long-term service contracts for preventive maintenance, calibration, and periodic testing of equipment.

Training & Certification Programs

Workshops and training sessions for client teams on equipment handling, calibration awareness, and compliance readiness.

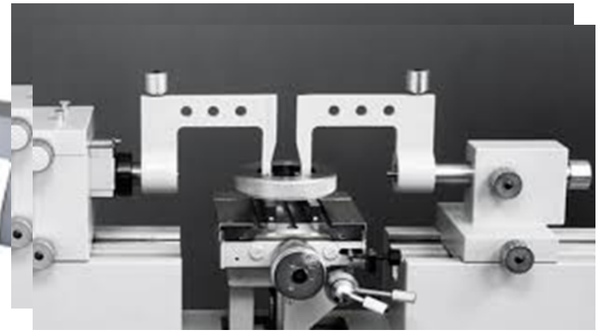
Quality Assurance

Comprehensive Calibration services ensuring compliance with industry standards, safety requirements, and product certifications



Our Calibration Services

- **Mechanical Calibration –** Basic Instruments
- **Mechanical Calibration -** Precision Instruments (Electronic Height Gauge, Profile Projector & VMM Calibration)
- **Pressure Indicating Devices –** Pressure Gauges, Vacuum Gauges, Switches, Transmitters
- **Weighing Scale & Balance Calibration –** up to 200kg
- ***Repair Service & Supply of New Instruments***

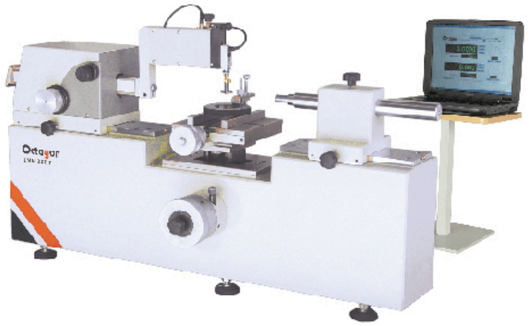


Our Calibration Services

- **Hardness Testing Machines –** Vickers, Micro Vickers, Rockwell, Brinell, Shore A&D
- **Testing Machines –** Universal, Tensile, Compression (up to 3000kN).
- **Testing Machines –** Speed & Displacement, Extensometer
- **Electrical & Thermal Instruments –** Multimeters, Clamp meters, Voltmeters, Ammeters, Thermometers
- **Noise (Sound) Meter , Lux Meter, Vibration Meter, Energy Meter**
- **Flow Meters**

Our Calibration & Testing Infrastructure

PCL Parikshan
CALIBRATION LABORATORY LLP



Unique Selling Proposition (USP) – Why PCL?

We provide NABL-accredited calibration services with advanced technology, expert professionals, and tailored solutions ensuring accuracy, compliance, efficiency, and cost savings.

One-Stop Accredited Facility

- We offer mechanical, electrical, and thermal calibration services under one roof, accredited by NABL for trusted compliance.

Advanced Technology & Skilled Experts

- Our lab is equipped with high-precision masters and staffed by experienced professionals ensuring world-class calibration results.

Tailored Client Solutions

- rom SMEs to large corporates, we provide customized calibration plans that meet specific operational and audit requirements.

Commitment to Quality & Cost Efficiency

- Our services ensure long-term accuracy, reduced downtime, and cost savings, helping clients improve processes and profitability.

Unique Selling Points

Meet our team

Kartik Gulabrao Gole

Quality / Technical Manager

B.E. in Production Engineering with 16 years of expertise in calibration, quality systems, and technical management. Specialist in ensuring NABL compliance, precision standards, and technical excellence.

Santosh Jagannath Biramane

CEO

ITI Diesel Mechanic with 14 years of industry experience in calibration and testing services.
Strong leadership in business operations, client management, and driving organizational growth.

Contact Us

PCL Parikshan Calibration Laboratory LLP is committed to providing accurate, reliable, and NABL-accredited calibration and testing services, supported by advanced technology, sustainable practices, and a customer-focused approach to ensure precision, compliance, and long-term trust with clients across industries.
